

PROSPECTOR™

*Discover and remove contaminants
before they enter your workstream...
easily, inexpensively, quickly.*

Strainers & Pail Liners

The drop-in, disposable quick screen from Binks

PROSPECTOR™ Strainers

The drop-in, disposable quick screen from Binks

- ✓ *Saves time over current methods of straining paint*
- ✓ *Helps eliminate foreign objects clogging fluid nozzle*
- ✓ *Protects against costly paint defects*
- ✓ *Anti-static — Meets NFPA 99 requirements*

Binks Prospector™ strainers are an economical way to remove foreign material from paint, stain, lacquer and coatings.

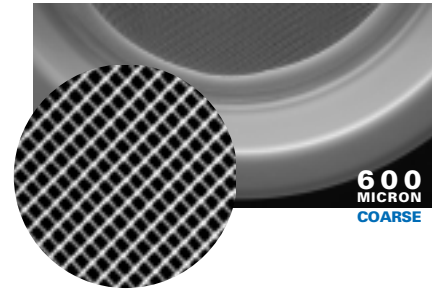

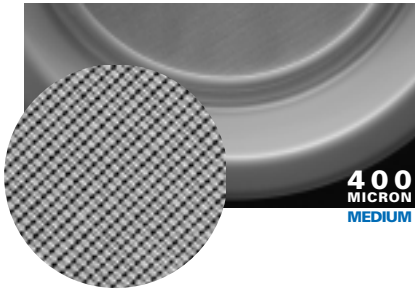

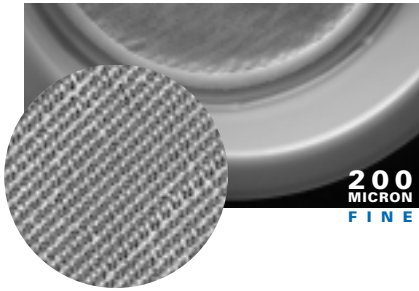

Treated with our “anti-stat” additive to minimize static electricity build-up in shipping and handling, the Prospector™ strainer is ideal for use with all products compatible with polyethylene.

The semi-rigid cup is made of tough, high density polyethylene, with a strong lip to keep the screen in a stable position. The polyethylene screen is available in a choice of micron sizes and holds secure during pours. Prospector™ is disposable, yet durable enough for reuse.

Designed to optimally fit Binks tanks with or without disposable tank liners, Prospector™ also works with other pressure tanks.

For more information or samples, contact your Binks representative.

Available in 200, 400 or 600 micron screen

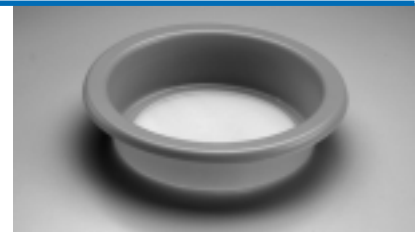

PROSPECTOR™

Pressure Tank Strainer — Fits 2 Gal. Tanks

Inner Diameter 8.75" (222.25mm), Outer Diameter 10.625" (269.87mm), Height/Depth 2.625" (66.67mm)
Case Qty: 20

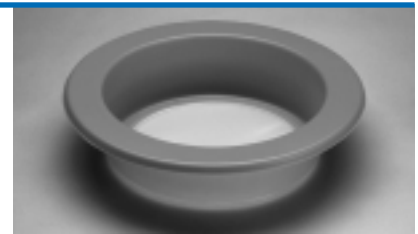

Part No. PTS-2Gal-K20-200 **200 micron** (approx. 65 wire mesh)
Part No. PTS-2Gal-K20-400 **400 micron** (approx. 37 wire mesh)
Part No. PTS-2Gal-K20-600 **600 micron** (approx. 28 wire mesh)

Pressure Tank Strainer — Fits 5, 10 and 15 Gal. Tanks

Inner Diameter 11.75" (298.45mm), Outer Diameter 15.375" (390.52mm), Height/Depth 3.75" (95.25mm)
Case Qty: 20

Part No. PTS-5Gal-K20-200 **200 micron** (approx. 65 wire mesh)
Part No. PTS-5Gal-K20-400 **400 micron** (approx. 37 wire mesh)
Part No. PTS-5Gal-K20-600 **600 micron** (approx. 28 wire mesh)

5 Gal. Pail Strainer — For Universal, Straight-sided Pails

Inner Diameter 11" (279.40mm), Outer Diameter 12" (304.80mm), Height/Depth 3.75" (95.25mm)
Case Qty: 20

Part No. PS-5Gal-K20-200 **200 micron** (approx. 65 wire mesh)
Part No. PS-5Gal-K20-400 **400 micron** (approx. 37 wire mesh)
Part No. PS-5Gal-K20-600 **600 micron** (approx. 28 wire mesh)

5 Gal. Pail Liner — For Universal, Straight-sided Pails

Diameter 11.25" (285.75mm), Outer Diameter 13" (330.20mm)
Case Qty: 40

Part No. PL-5Gal-K40

Over 100 years of spray finishing leadership

The Binks team of experts — engineers, designers, technicians, and our customer service group are constantly working to bring you the quality, efficiency, performance and value you expect from one of the world's most recognized spray finishing brands.
