Pistol Grip with 6 oz. Cartridge

- **Dispensing sealants from 2.5, 6 and 12 oz. cartridges**
- **Pistol grip or palm grip**
- **Air-powered or manual-operated**
- **All metal rugged construction**
- **Knob is permanently captured onto the gun body**

**Air-powered and manual guns for dispensing sealants**

12 oz. Retainer

6 oz. Retainer

2.5 oz. Retainer

SEALANT ADHESIVE EQUIPMENT

## Air-Powered Sealant Guns

The 950 Series air-powered sealant guns dispense adhesives or sealants from 2.5, 6 or 12 ounce polyethylene cartridges. Each size of these lightweight, all metal guns is available in two styles – pistol grip and palm grip.

The guns feature an interchangeable gun body and actuator with a fast change cartridge knob included. The cartridge retainers are corrosion-resistant, will fit all handles and are made of high strength steel to prevent cartridge splitting under pressure.

In operation, the dispense rate is controlled through air pressure, trigger position and nozzle orifice. When the gun is actuated, air pressure forces the plunger down inside the cartridge forcing material out the nozzle. When the trigger is released, pressure is removed and dispensing stops.

## Manual Sealant Gun

Manually-operated sealant gun for 2.5, 6 or 12 ounce size cartridges uses a smooth plunger rod for easy operation. Simply releasing the trigger releases the pressure; dispensing is easy to control and stops quickly. A threaded collar holds the cartridge in position. Two available models feature different rod lengths for different size cartridges.

Accessories such as nozzles, accessories and air hoses are supplied separately and are not included with the gun. Hose assemblies are available in different lengths with Aro-, Hansen- or Schrader-compatible connectors.

## Technical Specifications

Max. working pressure . . . . . 100 psi (0.7 MPa, 7 bar)  
Outlet port size . . . . . 1/4 npt(f)  
Wetted parts . . . . . polyethylene

## Ordering Information

- C04-074 2.5 oz. Palm Grip Gun
- C04-076 2.5 oz. Pistol Grip Gun
- C04-087 6 oz. Palm Grip Gun
- C04-090 6 oz. Pistol Grip Gun
- C04-066 12 oz. Palm Grip Gun
- C04-068 12 oz. Pistol Grip Gun

### Air-Operated Sealant Gun Kits

All kits include an air hose and pistol grip gun.

- C27-127 2.5 oz. Gun Kit
- C27-128 6 oz. Gun Kit

### Manual-Operated Sealant Gun Kits

- C05-213 Gun Kit  
For 2.5 and 6 oz. cartridges.
- C05-212 Gun Kit  
For 2.5, 6 oz. or 12 oz. cartridges.
- C27-124 Gun Kit  
Includes C05-213 gun with six 2.5 oz. cartridges  
and assorted nozzles.

## Accessories

*Note: accessories such as nozzles, accessories and air hoses are supplied separately and are not included with the gun. Hose assemblies are available in different lengths with Aro-, Hansen-, or Schrader-compatible connectors.*

### Aro Brand Inlet Connectors

- C04-019 0.125 in. ID x 5 ft. air hose with male Q.D. inlet.
- C04-009 0.125 in. ID x 10 ft. air hose with male Q.D. inlet.
- C04-013 1/4 npt(f) Q.D. for above hoses.

### Hansen Brand Inlet Connectors

- C04-038 0.125 in. ID x 5 ft. air hose with male Q.D. inlet.
- C04-026 0.125 in. ID x 10 ft. air hose with male Q.D. inlet.
- C04-033 1/4 npt(f) Q.D. for above hoses.

### Schrader Brand Inlet Connectors

- C04-053 0.125 in. ID x 5 ft. air hose with male Q.D. inlet.
- C04-045 0.125 in. ID x 10 ft. air hose with male Q.D. inlet.
- C04-047 1/4 npt(f) Q.D. for above hoses.
