Power Caulk™ Models 12020-M

- **Dispensing sealants from 10 and 29 oz. cartridges**
- **Trigger-actuated, fast shut-off - prevents dripping**
- **For use with plastic or fiber cartridges**
- **Converts for use with aluminum cartridges**

Model 12020-M, Part No. C27-098

**Fast, consistent,
smooth
application of
adhesives and
sealants**

Graco Power Caulk guns are made with all metal, heavy-duty construction. These guns use on-demand regulated air power to provide fast, consistent and smooth application of adhesives and sealants. They also feature an instant exhaust valve to prevent dripping or stringing once the trigger is released.

Model 12020-M

This gun accommodates a 10 oz. cartridge, plastic or fiber. A sleeve and spacer is also available for aluminum cartridges with removable nozzles. A bayonet lock makes for fast and easy attachment of the cartridge. A lightweight cast aluminum handle gives you variable dispense rates depending on air pressure or trigger position.
