

First choice when quality counts.™

PrecisionSwirl™ Swirl Applicator Module

PrecisionSwirl Control Panel

PrecisionSwirl Applicator

70 ft. (21.3 m) Cable Set

Swirl bead dispensing with Graco's PrecisionSwirl

- Provides a circular loop "swirl" bead pattern
- Swirl pattern has uniform bead profile and consistent edges
- Increased tip standoff simplifies programming
- Swirl pattern can be varied along the bead path
- Application has no dynamic seals

Typical Fluids Handled

- Heat cure epoxy
- PVC plastisol

Typical Applications

- Hem flange adhesive bonding
- Structural adhesive bonding
- PVC seam sealing
- After hem sealing
- Liquid mask sealing

Typical Fabrication Facilities

- Automotive car and truck body shop operations
- Automotive stamping feeder plants

Graco's PrecisionSwirl applicator resolves important quality issues for automotive hem flange enclosure panel applications. When merging the inner panel to the outer panel, the successful use of a flat swirl pattern vs. extruded or stream bead technology ensures consistent full metal coverage where it should be, reducing squeeze-out, repair or scrap.

When compared to air swirl methods, Graco's PrecisionSwirl really outperforms. Part quality improvements include: consistent edges and low bead height, a wider range of pattern widths, precise corners, excess material reduction, and taller stand off distances from tip to part. This adhesive coverage puts dispensing control into process equipment and out of fluid dynamics. The material is less likely to flow to the outside edge of the hem and excess material usage can be eliminated to help prevent contamination of process equipment.

PrecisionSwirl puts the dispensed material down in a string-like circular loop pattern where it spreads out in the coverage area. The RPM of the PrecisionSwirl applicator is controlled using the manual selected or analog command signal. The swirl pattern maintains its shape and stays in place when applied to the metal surface even when the part is in a vertical position.

SEALANT ADHESIVE EQUIPMENT

Technical Specifications

Control Panel

Input power 85-132 and 170-250 VAC, 1ph 50/60 Hz, 48 watts

Output power proprietary PWM voltage to the motor

Analog input (speed adjustment) 0-10 VDC, or 0-5 VDC

Auto control relay contact rating 24 VAC, 3 amps

Weight 23.5 lbs. (10.7 kg)

Size 14 x 12 x 6 in. (356 x 305 x 152 mm)

Swirl Applicator

Input power proprietary PWM voltage to the motor

Motor type variable rpm brushless DC

Motor brake standard, selectable on-off

Motor Speed Control

Manual single speed set point

Automatic 0-10 volt adjustable

Maximum motor speed 20,000 rpm

Maximum operating pressure . . . 3500 psi (240 MPa, 240 bar)

Maximum operating temperature 140°F, (60°C)

Fluid inlet 3/4 in. 37° JIC(f)

Wetted parts stainless steel, nickel alloy, brazing alloy, epoxy adhesive, E.P.D.M.

Weight 1.62 lbs. (0.74 kg)

Temperature Conditioned Snuff Back Gun

Fluid inlet 1/2 NPT(f)

Fluid outlet 3/4 in. 37° JIC(m)

Temperature conditioning inlet 1/4 NPT(f)

Temperature conditioning outlets (4) 1/8 NPT(f)

Max. operating pressure 3500 psi (24.1 MPa, 241 bar)

Wetted parts carbon steel, aluminum, SST, Viton®

Weight 4.4 lbs. (1.99 kg)

Maximum operating temperature 60°C (140°F)

Air cylinder operation air to open, air to close with fail-safe spring to close

Actuation method 4-way solenoid valve

Instruction manuals

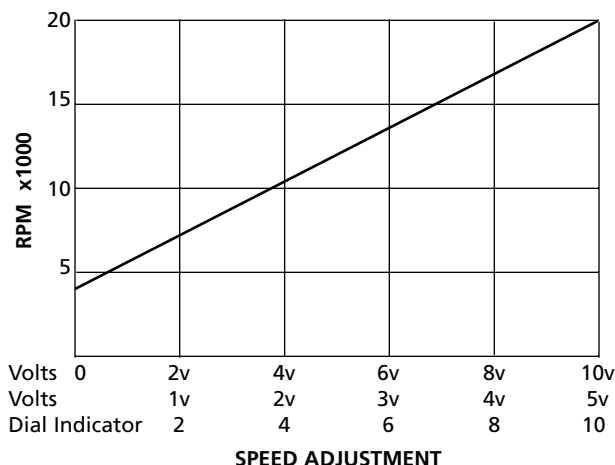

PrecisionSwirl 310-554

Temperature Conditioned Gun 310-539

Hytrel® and Viton® are registered trademarks of DuPont.

Ordering Information for PrecisionFlo/PrecisionSwirl Packages

For Automatic High Viscosity Applications

Temperature Conditioned Models (select one):

970-223 PrecisionFlo Plus, touch screen controller

970-045 PrecisionFlo, panel-mount controller

Includes: filter, regulator, PrecisionFlo module, controller, temperature conditioner with fluid hoses, and temperature conditioned automatic snuff back dispense valve with PrecisionSwirl applicator, panel, cables, and tip.

Ambient Models (select one):

970-224 PrecisionFlo Plus, touch screen controller

970-046 PrecisionFlo, panel-mount controller

Includes: filter, regulator, PrecisionFlo module, controller, fluid hoses, and automatic snuff back dispense valve with PrecisionSwirl applicator, panel, cables, and tip.

Heated Models (select one):

970-225 PrecisionFlo Plus, touch screen controller

970-047 PrecisionFlo, panel-mount controller

Includes: filter, 4-zone control panel, heated regulator, PrecisionFlo module, controller, heated fluid hoses, and heated automatic snuff back dispense valve with PrecisionSwirl applicator, panel, cables and tip.

For Automatic Low Viscosity Applications

Temperature Conditioned Models (select one):

970-239 PrecisionFlo Plus, touch screen controller

970-095 PrecisionFlo, panel-mount controller

Includes: filter, regulator, PrecisionFlo module, controller, temperature conditioner with fluid hoses, temperature conditioned automatic snuff back dispense valve with PrecisionSwirl applicator, panel, cables, and tip.

Ambient Models: (select one):

970-229 PrecisionFlo Plus, touch screen controller

970-096 PrecisionFlo, panel-mount controller

Includes: filter, regulator, PrecisionFlo module, controller, fluid hoses, automatic snuff back dispense valve with PrecisionSwirl applicator, panel, cables, and tip.

Heated Models: (select one):

970-225 PrecisionFlo Plus, touch screen controller

970-097 PrecisionFlo, panel-mount controller

Includes: filter, heated regulator, 4-zone control panel, PrecisionFlo module, controller, heated fluid hoses, heated automatic snuff back dispense valve with PrecisionSwirl applicator, panel, cables, and tip.

For Automatic Low Viscosity Applications

Temperature Conditioned Models (select one):

970-240 PrecisionFlo Plus, touch screen controller

970-098 PrecisionFlo, panel-mount controller

Includes: dual filter bank, PrecisionFlo module, controller, temperature conditioner with fluid hoses, temperature conditioned automatic snuff back dispense valve with PrecisionSwirl applicator, panel, cables, and tip.

Ambient Models (select one):

970-230 PrecisionFlo Plus, touch screen controller

970-099 PrecisionFlo, panel-mount controller

Includes: dual filter bank, PrecisionFlo module, controller, fluid hoses, automatic snuff back dispense valve with PrecisionSwirl applicator, panel, cables, and tip.

Heated Models (select one):

970-235 PrecisionFlo Plus, touch screen controller

970-100 PrecisionFlo, panel-mount controller

Includes: dual filter bank, 4-zone control panel, PrecisionFlo module, controller heated fluid hoses, heated automatic snuff back dispense valve with PrecisionSwirl applicator, panel, cables, and tip.

Note: A Robot Interface Kit is required for PrecisionFlo metering packages. See the Accessories section of this data sheet for information.

Accessories

Swirl Dispense Tips

Part No.	Size	Part No.	Size
918-601	0.015	918-605	0.023
918-602	0.017	918-606	0.025
918-603	0.019	918-607	0.027
918-604	0.021	918-608	0.030

Repair Kits

- 918-589 **Swirl Motor Assembly Repair Kit**
- 918-620 **Swirl Tube Repair Kit**
- 918-523 **Temperature Conditioned Snuff Back Valve Repair Kit**
- 918-524 **Temperature Conditioned Manifold**
For snuff back valve.
- 918-595 **Tool Kit**
Includes various tools for servicing the Swirl applicator (918-330).

Recommended Spares

- 918-330 **Swirl Applicator with 0.027 Swirl Tip**
- 918-544 **Temperature Conditioned Snuff Back Valve Assembly**
Does not include manifold.
- 918-525 **Temperature Conditioned Manifold**
For snuff back valve.
- 617-760 **Flexible Cable, 15 ft. (4.5 m)**
Connects PrecisionSwirl dispensing module to extension cable.
- 617-870 **Extension Cable, 55 ft. (16 m)**
Connects PrecisionSwirl control panel to flexible cable.
- 617-829 **Robot Interface Cable, 40 ft. (12.1 m)**
Connects PrecisionSwirl control panel to robot control panel. Accepts a 0-10 volt signal to adjust RPM.
- 617-830 **Deflector**

PrecisionFlo Plus Solutions

Robot Interface Kits

A Robot Interface Kit is required for PrecisionFlo Plus metering packages. Select a 24 or 120 VAC kit.

- 918-634 **120 VAC Robot Interface Kit**
Includes kit for interfacing to a 120v robot control.
- 918-635 **24 VAC Robot Interface Kit**
Includes kit for interfacing to a 24v robot control.
- 970-244 **Transformer Kit**
Includes a 480 VAC transformer to power the 120 VAC PrecisionFlo Plus control panel.

PrecisionFlo Solutions

- C58-854 **120 VAC Robot Interface Kit**
Includes stand alone enclosure for interfacing to a 120v robot control.
Note: PrecisionFlo control includes 24 VDC robotic interface.
- 970-216 **Handheld Interface Pendant**
Includes handheld pendant and cable for remote interfacing to PrecisionFlo control panel.
- 970-215 **Transformer Kit**
Includes a 480 VAC transformer to power the 120 VAC PrecisionFlo control panel.
